

XVII Neurosonology Research Group of the World Federation of Neurology General Assembly

**October 28-30, 2015
Santiago, Chile**

WELCOME LETTER

Dear Colleagues and Friends!

It is our pleasure to welcome you for the XVII Neurosonology Research Group of the World Federation of Neurology (NSRG WFN) General Assembly. On behalf the Organizing Committee, we extend a very hospitable invitation to all of you interested in Neurosonology and its clinical and experimental applications.

The meeting will take full advantage of its location in Santiago. Founded in 1541, Santiago, Chile's capital, sits in a valley surrounded by the snow-capped Andes and the Chilean Coastal Range. Plaza de Armas, the grand heart of the city's old colonial core, is home to 2 neoclassical landmarks: the early-19th-century Royal Court Palace, which houses the National History Museum, and the 18th-century Metropolitan Cathedral. Barrio Brazil and bohemian Barrio Bellavista offer lively nightlife. Today, it is one of the most modern cities on the continent, home to nearly 5 million inhabitants--over a third of all Chileans. We hope that you'll be able to find some time and discover this charming city.

And at last... Chilean wines! When it comes to winemaking, Chile may seem like a

newcomer to the world of wine, but its viticultural roots reach as far back in time as the arrival of the first Spanish conquerors to this grape-growing paradise. In Chile, Spaniards found the ideal place to plant vines, since the climate allowed a perfect growing season and ripening of the fruit. What's the best Chilean wine? Well, as you know wine tasting is a very subjective thing, and there are way too many wines that can fit the criteria depending on who you ask but we hope that you'll try to do it.

The members of faculty of these meetings consisted of foremost experts in the field of Neurosonology. This NSRG WFN General Assembly would be impossible to organize without active support and participation of Chilean neurologists and we would like to extend our gratitude to all who help us to organize this meeting.

We look forward to welcoming you in Santiago at a very promising NSRG WFN meeting dedicated to almost all aspects of Neurosonology.

Sincerely yours,

Pablo Lavados, MD, PhD
Chairman
Local Organizing
Committee

Massimo Del Sette, MD, PhD
Chairman, NSRG WFN

Meeting Venue

Hotel Kennedy

Address. Avenida Kennedy 4570, Vitacura 6682132 - Santiago, Chile
